Experience

Crowe Horwath LLP

May 2006-Present

Video Editor, Web/Interactive Developer

Responsibilities include editing video for several mediums, including DVD, CD, and Flash integration for the Web. Video projects range from green screen interviews to full motion graphics design and production. Development duties range from building sites in Coldfusion and .Net to building Flash presentations and developing prototypes and rich internet applications with Flex. Responsibilities also include communication with clients to discuss ideas and determine functional solutions.

Grand Rapids Rampage

November 2005-April 2006

Video Technician

Job responsibilities included videotaping team practice sessions and games, capturing video, editing game footage, uploading video to the web, and delivering final videos on DVDs.

Education

Grand Valley State University

September 2003-April 2006

Allendale, MI

BS in Communications with emphasis in Video Production

3.8 GPA
